SAJE Technology

"Your Voice To Independence"

Mobile Products

SAJE Technology has adapted Bluetooth headsets and speaker phone products allowing the user to activate the device with any ability switch. Both the Bluetooth device and the cell phone maintain the functionality of the manufacturer's specifications but control of the device is no longer limited to the button on the Bluetooth device.

EasyBlue and Zoomate offer the ability to answer, place and end calls all by activating any ability switch.

EASYBLUE switch-adapted Bluetooth headset

ZOOMATE switch-adapted Bluetooth speakerphone

OFFICEMATE switch-adapted multipoint Bluetooth headset

Officemate offers the ability to answer, place and end calls all by activating any ability switch. In addition, Officemate operates as your microphone for your speech recognition software.

All WITH THE SAME HEADSET
