Roomate Plus

Voice Activated

**Environmental
Control Unit**

**NO VOICE TRAINING
REQUIRED**

ROOMATE PLUS offers a voice-activated telephone plus voice control over virtually unlimited devices. ROOMATE PLUS controls devices such as lamps and fans as well as infrared devices such as TV, DVD, VCR and stereos. Opening doors, calling a nurse or attendant, adjusting a bed or heating and cooling systems are all possible with ROOMATE PLUS. The system is designed to control one room or the whole house, while maintaining a simple direct access voice command structure.

Roomate Plus does not require voice training

- Voice control over lights, appliances, infrared devices, heating and cooling systems, adjustable beds, and countless other devices
- Connects to any ability switch for "wake up" activation of the system
- Auditory feedback of all commands
- Single commands for all operations - no multiple level navigation
- Customizable commands
- Use the headset as a microphone for your voice recognition software
- Freedom to answer and place calls up to 500 feet from the base station
- The headset can be used with the SAJE Technology speakerphone kit
